

EPI Forum in Paris, October 6-7, L'Hôtel des Arts & Métiers

The European Processor Initiative (EPI), a project with 27 partners from 10 European countries, driving EU independence in HPC chip technologies and HPC infrastructure is proud to announce its **Forum** to be held in **Paris, France, October 6-7, 2025**.

Why attend?

After last year's successful Forum opening, the largest project spearheading European efforts to power exascale supercomputers with sovereignty, resilience, and confidence, is inviting the leading voices from academia, industry, and the HPC ecosystem to continue to discuss progress, results and ways ahead for European leadership in HPC and AI processor, and accelerator technologies.

The main theme of discussion will be **European technologies for true digital and AI freedom**:

- Empowering European Digital and AI Sovereignty
- Breaking HPC silos
- Driving Sustainability in HPC, Edge Computing, and AI

Attendees are expected to hear keynotes from industry leaders and champions in the field: **Dr. Marc Duranton** from CEA, **Carlo Cavazzoni** from Leonardo, **Prof. David Atienza** from EPFL, industry views from Platinum EPI Forum sponsors DDN and Eviden, and Gold EPI Forum sponsors: AMD, CEA, E4 and SiPearl.

Three technical sessions will be held related to Codesign efforts in EPI, Arm/Rhea and RISC-V in EPI. Both days of agenda also include panel discussions – one on European sovereignty in HPC, Edge and AI and another on Making the convergence between Cloud, HPC, AI and Edge.

EPI invites you to take part in this event, with EPI researchers, engineers, stakeholders and global technology providers from all over the globe, shaping the future of HPC!

Registration

Registration is open at the EPI website: <https://epiforum-registration.site.digitevent.com/page/informations/>, and all other details regarding the event and policies are available on our website here: <https://www.european-processor-initiative.eu/epi-forum-2025/>.

Venue

EPI Forum will be held in magnificent Paris, at the **L'Hôtel des Arts & Métiers**, 9bis Avenue d'Iéna, 75016 Paris, France. The Forum will be organized in two days: the event starts on Oct 6 in the afternoon and continues Oct 7.

We look forward to seeing you at the EPI Forum!

This project has received funding from the European High Performance Computing Joint Undertaking (JU). The JU receives support from the European Union's Horizon 2020 research and innovation programme and from Croatia, France, Germany, Greece, Italy, Netherlands, Portugal, Spain, Sweden, and Switzerland.
